Quarto

Quarto enables you to weave together content and executable code into a finished document. To learn more about Quarto see <https://quarto.org>.

Running Code

When you click the **Render** button a document will be generated that includes both content and the output of embedded code. You can embed code like this:

```
data(mtcars)
library(pander)
pander::pander(head(mtcars))
```

Table 1: Table continues below

	mpg	cyl	disp	hp	drat	wt	qsec	vs

You can add options to executable code like this

```
[1] 4
```

The `echo: false` option disables the printing of code (only output is displayed).
